

PERFORMING ARTS ACADEMY

A Unique Opportunity:

Dover Bay's Performing Arts Academy offers an exciting opportunity for accelerated learning for those serious about growing their performance skills and their confidence alongside like-minded students.

We have a fine facility with state of the art lighting and sound equipment and encourage students to also learn technical theatre.

Dover Bay has graduated numerous actors and technicians who are now making their living in the performing arts. Whether a student's goal is to work in theatre, in Hollywood, in 'Hollywood North' (Vancouver, the third largest production area in North America); or they just want to gain skill and learn about theatre and about themselves, Dover Bay's P.A.A. is a great place to be.

The culmination of each P.A.A. class is a presentation of student learning in the form of play performed for the public, generally during a series of evening shows.

The Application/Acceptance Process:

- 1) Fill out the attached application, ensuring that email addresses are accurate.
- 2) Students will be sent a number of monologues.
- 3) Students choose one monologue, memorize and prepare to act it out.
- 3) Audition: Come in to Dover on a specified date to perform the monologue for one of the academy instructors. The instructor will work with the student on the monologue for a short time, and then will ask to hear the applicant sing. (We understand that some applicants will be trained singers, or will be interested in singing, and some will not. We do need to have some understanding of where each applicant is vocally. Singing well is not required for acceptance.)
- 4) You will be informed as soon as possible as to whether you are accepted into PAA.

Costs:

There is **no** cost for Academy program. However, students may choose to take advantage of opportunities to attend festivals for which there will be a fee.
