RE: Board Correspondence

Dear Ms. Wood,

Thank you for your letter dated December 4, 2020. It was received at the December 16 Regular Board meeting and I was directed to respond on behalf of the Board.

We recognize that the safety of educators are top-of-mind as you advocate for all your members. We also appreciate the recommendations brought forth in your letter. Our educators have shown to be resilient and committed to every students' learning through a particularly challenging time. A job well done to them all!

I have taken this opportunity to share this letter with the Superintendent and the Learning Services leadership team. We have discussed your recommendations while also taking into consideration the direction placed on all school districts by the Provincial Health Officer and the Ministry of Education.

In addition, the TTLC Board representatives and senior staff look forward to discussing this further at our meeting on January 7, 2021.

All the best to you and the executive team this holiday season!

Sincerely,

Charlene McKay
Board Chair
