

AP 507 – Fencing

Purpose

The Board will authorize construction of a fence between the school site and the property of only those owners agreeing to the Board's conditions for the construction of shared fencing

Procedure

The Board will construct a fence suitable to the urban or rural location of the school site and to other pertinent conditions which may exist. The property owner in an urban area will pay an amount comparable to one-half the cost of an erected economical wood fence; the property owner in a rural area will pay an amount comparable to one-half the cost of an erected three-strand barbed wire fence. These amounts, expressed in dollars per linear foot, will be reviewed and set at the beginning of each year by the Property Department.
