Google Suite for Education

Nanaimo Ladysmith Public Schools (NLPS) plans to provide students with access to Google Suite for Education (GSFE) and its extensions.

The District will provide each student with an email account, and a secure login and password to access the email account and any documents or work they create. The school is able to use these tools to facilitate collaboration between educators and students.

Because Google's servers are located outside of Canada, we are required by the BC Personal Information and Privacy Protection Act to get consent to use these products at NLPS. Google also requires that students under the age of 18 obtain parent or guardian consent before using any of its Google Suite for Education Core Services.

Any data placed on Google's servers is the property of the student and the school district. Google cannot use any of the data for any reason, nor can they use any advertising whatsoever in their product.

GSFE and district approved extensions may involve the storing and accessing of the following types of information:

1. Student's name, grade level and school name to create the GSFE login account
2. Classroom assignments, research notes, presentations, school-based projects
3. Multimedia objects created by students (videos, pictures, audio files, animations, etc.)
4. Quizzes, tests, surveys
5. Professional development materials and documents
6. Summative assessments (e.g., teacher comments, peer feedback)
7. Calendars for assignment dates, project deadlines, events
8. Communication with teachers and other students related to educational purposes
9. Images and video of students for educational purposes
