

Padlet

Padlet is an online bulletin board where invited contributors can share, collect, and collaborate by posting text, images, links, documents, and audio or video recordings. It provides multiple modes of engagement and real time collaboration.

Summary of the Privacy Assessment

Data Collected

- Users can create padlets where they and other users can contribute or post content. This content (“user content”) may include text, images, videos, audio, documents, files, links from the web, drawings, and maps.
- The privacy of your user content is dependent on the privacy of the padlet.
- The Contributors to the Padlet are anonymous and no data is collected on the contributors.

Personal Information is used for or shared with...

- Padlet does not sell or rent your personal information to any third-party for any purpose.
- Students are advised not to share personal information as content when contributing to a Padlet
- All information or content shared on a Padlet is automatically screened to ensure that it complies with their [content policy](#).

Security

- Personal information is stored on a server equipped with industry standard firewalls. In addition, the hosting facility provides a 24x7 security system, video surveillance, intrusion detection systems and locked cage areas.

Data storage location

- The Service is hosted on servers at a third-party facility, with whom we have a contract providing for enhanced security measures

Data review/retention

- Posted content will be retained in users' accounts until it is deleted.
