

Peardeck

Pear Deck is a presentation platform that allows teachers to collect and save student responses in a live session in order to gauge student comprehension.

Summary of the Privacy Assessment

Data Collected

- Email Address (associated with a Google or Microsoft Account)
- Name (if you include it in your Google or Microsoft Profile)
- Your image and likeness if you include it in your Google or Microsoft profile or include in content that you create with our Services (these type of files are referred to as your "User Content")
- User Content may include text images and media that you include in your Pear Deck presentation

Personal Information is used for or shared with...

- Information is used to provide and improve services
- Pear Deck may use certain trusted third party companies and individuals to help them provide, analyze, and improve their Services

Security

- Data is stored in secure facilities and uses data encryption for data in transit

Data storage location

- Data is stored in some of Amazons storage facilities as well as Googles facilities

Data review/retention

- Requests to review student data from parents, teachers, and administrators may be directed to privacy@peardeck.com.
- Once an account is deleted so is all of the student data associated with that account.
