

# Quizlet

Quizlet is an online database of flash cards that can be practiced using 9 different study activities. While students can browse for study materials from users around the world, many teachers make and share custom study sets just for their classes. There are other great features for teachers, too, including Quizlet Live, a team-based quiz competition that turns study sets into a collaborative classroom quiz game. A paid annual subscription to Quizlet Teacher offers student progress tracking and a variety of customization tools.

## Summary of the Privacy Assessment
