Comments: (i.e. strengths, limitations, best practice suggestions)

Tinkercad is a free, kid-friendly online computer-aided design (CAD) program where users can design, modify, and print 3D objects. Tinkercad makes it easy for students to learn a staple of the design process: combining multiple simple objects to make more complex shapes. It also allows students to design their own shapes or pick shapes to subtract from their projects, providing an easy way to create arches or holes using negative space as a tool.

Preliminary Privacy Impact Assessment

Digital resource	Tinkercad https://www.tinkercad.com/privacy
Does a PIA exist? (Vendor, ERAC)	No
Is there a 'data link' (e.g.. Pulling PI data from one source to another)?	No
Describe how PI is (requires examining TOU and Privacy Policy)	
Collected What PI data is collected? List all the PI that could be collected from students, teachers, parents through using the service	N/A
Used What is the PI used for? Will PI be used to make decisions that directly affect individuals? Does the company use the PI to advertise its services or those of other companies to students, teachers or parents?	We don't sell your data or create profiles of Tinkercad users to sell.
Disclosed Who will/can have access (vendor, partners, legal)?	Teachers using Tinkercad Classrooms control what is shared and with whom. Unless teachers choose to share, no student work is visible outside of the Tinkercad Class, or to other students within the Class.
Secured Measures in place to secure – encryption, passwords, software and	provide secure communication with our servers, and perform regular security audits and risk assessments to help keep your information secure.

platform updates, independent testing for security	
Stored Where is the data being stored? <ul style="list-style-type: none"> - What hosting providers are being used? - What hosting region(s) are data being stored in? 	N/A
Kept Accurate	N/A
Retained Expiry, deletion, backup/restore <ul style="list-style-type: none"> - How are requests made by students, teachers, parents, district staff for data to be: Deleted, Downloaded - What are the retention policies (not, e.g., 1 yr retention if PI used to make decisions that affect individuals) 	N/A
RECOMMENDATIONS <input type="checkbox"/> Approve the application/extension	COMMENTS Create student accounts with aliases and leave the default Safe Mode on to keep student projects private.
