What is for Lunch and Snack?

Dear Families,

Children can learn that there are many types of food in the world. It is important that you send the food that your child and family enjoy at home. Families can talk to their children about different foods families may eat. Eating together is a fabulous way for a class to talk about food, kindness, and trying new things. This booklet is to support all families coming to school to know that there could be different foods that a child may see or smell when they come to school. All children should feel welcome to bring food they enjoy and are familiar with. Let your teacher know if you have any questions. We are happy to help.

It's ok to say and ask "I have never seen that before. What is it?"

Due to allergies, please do not send any peanuts or other nuts.
